

## CENTER CONSOLE SHELF FOR ND M21-61120

Thanks for purchasing a center console shelf for your ND. Constructed of powder-coated aluminum, it will give you a sturdy platform to help you better organize your center storage compartment. If you have any questions during installation or suggestions for improvement to the product or the instructions - please don't hesitate to call or email.

**WARNING: Not everyone can perform every installation. It is critical that you be honest with yourself in regards to your ability. We're more than happy to help, but there are only so many things we can do from the other end of a phone / computer. If in doubt, discuss the install with us before you dive in. Improper installation could cause injury and / or death!**

**Required tools:**

- None

1. The tabs on the back of the shelf are not symmetric. Visually line up the tabs with the slots found at the back of the glove box to determine how the shelf should be oriented before installing.
2. With the tabs pointing toward the rear of the car, insert the shelf at a diagonal to clear the opening of the compartment.
3. Rotate the shelf so that it is horizontal and line up tabs on the shelf with the slots at the back of the glove compartment. Raise the front of the shelf upward and gently push the shelf back until the tabs become seated. This may take some maneuvering of the shelf to get it to seat fully.
4. Once the shelf tabs are seated in the slots, lower the front of the shelf until it rests on the plastic ledges at the front of the compartment.
5. That's it, you're done.
